

NM INSTITUTE OF ENGINEERING & TECHNOLOGY

SIJUA, PATRAPADA, BHUBANESWAR

Date: 12/12/2018

As per the collected feedback from all stakeholders during the session 2018-19, Following are the highlighted points:

Action Taken Report on Feedback

Assessing feedback from various stakeholders regarding curriculum upgradation is a crucial step towards improving the quality of the institution. The Institute follows a well-defined, multidimensional process of assessment, which involves gathering feedback from students, teaching faculty, parents, alumni, and employers. This feedback is used to identify any gaps in the curriculum and take measures to bridge them, such as incorporating add-on courses, inviting guest lectures, conducting workshops, seminars, and industrial visits. The objective of this system is to provide a framework for acquiring, summarizing, and documenting information to improve the overall quality of education.

Feedback Analysis and Action taken report

Feedback	Action taken
Students <ol style="list-style-type: none">1. Students express a desire for more research opportunities within the college to explore their interests and gain practical research experience.2. The library is too small and does not have enough resources.3. Students feel that they have limited exposure to industry professionals, which hampers their understanding of the practical aspects and industry expectations.	<ol style="list-style-type: none">1. The faculty members are encouraged to involve students in research projects and provide funding for student-led research initiatives. Organizing research symposiums, seminars, and workshops can also foster a culture of research and innovation.2. It is decided to expand the library so that the students can access more resources.3. The college is organizing regular guest lectures, industry visits, and workshops conducted by experts from various industries. Encouraging students to participate in internships and providing networking opportunities, such as career fairs and alumni events, can facilitate interaction between students and industry professionals.
